abuse  
S

There is help in the Kimberley for you and  
your family to live a life free of abuse.

**Abuse is something none of US deserves to suffer from or be subjected to.**

So, help is available in the Kimberley for those who are.

Support includes legal assistance, emergency accommodation, and financial aid to escape violence.

**Family and Domestic Violence**

Family violence involves violent, threatening, abusive, or controlling behaviour toward a family member. It can include financial, emotional, psychological, or sexual abuse, as well as actions like shouting, stalking, choking, damaging property, or threatening pets. Any behaviour that makes a family member, including children, feel scared is considered family violence.

If you're experiencing family violence, a lawyer can help you apply for a violence restraining order to protect yourself and your children.

**Where to Get Help**

Kimberley Community Legal Service and Marninwarntikura (Fitzroy Valley) provide free legal and social support. Many organisations in the Kimberley are ready to help, you can also find their details @ <https://csw.org.au/directory/> or use your smart phone camera to scan the code below.
